# Introduction

**“Teachers learn best by studying, doing, and reflecting;  
by collaborating with other teachers;  
by looking closely at students and their work;  
and by sharing what they see.”**

**Linda Darling-Hammond, 1998**

'High quality' professional development promotes continuous inquiry and improvement embedded in the daily life of our schools. It encourages a high level of personal, student-centered, instructional conversation that grows out of work undertaken in the classroom. Professional development allows us as educators to interact with one another in responsive, reflective and respectful ways, with opportunities for collaboration facilitated by building teams and district leaders.

# Mission Statement

The Warsaw Central School community is committed to empower each individual and recognize diverse talents, abilities and interests. We will cultivate a safe and effective learning environment as we guide everyone to become a lifelong learner and leader.

*Every student, Every day, Every way*

# Vision Statement

**We envision:**

- **Empowering Diverse Talents**  
*Participation and Best Efforts are nurtured and celebrated*
- **A Safe and Effective Learning Environment**  
*Relationships are based upon mutual respect, trust, accountability and optimism*
- **A Community of Lifelong Learners and Leaders**  
*Positive learning habits are modeled and cultivated*

# Belief Statement

The Warsaw Central School District believes that professional development is a commitment to provide professional growth, which improves and enriches teachers' knowledge and/or skills to increase student achievement. Professional development programs are individualized, ongoing, instructionally related and develop results that are observable and measurable. The district and faculty are partners in the ongoing process of professional growth for all.

Teachers engaged in continuous improvement should possess the following characteristics by being:

- Flexible and open to new ideas and techniques
- A life-long learner
- Knowledgeable about current practice
- Knowledgeable about best practice
- Knowledgeable about current educational research
- Technologically proficient
- Collaborative (especially with colleagues, parents and community)
- A partner with community resources
- Knowledgeable about child development issues
- Sensitive to diversity issues

This collaborative approach to professional development is meant to enhance the teaching excellence of the Warsaw Central School District, which in turn provides the best possible education for our students.

# Requirements and Regulations

## New York State Requirements

---

Part 100.2 (dd) of the Regulations of the State of New York require that all School Districts have a Professional Development Plan. Pursuant to the requirements of the **Regulations of the Commissioner of Education** our plan:

- Proposes to improve the quality of teaching and learning by ensuring that teachers participate in high quality professional development in order that they remain current with their profession and meet the learning needs of their students.
- Includes goals, objectives, strategies, activities and evaluation standards.
- Describes how the district will provide substantial professional development opportunities directly related to student achievement.
- Describes:
  - teachers' expected participation in professional development.
  - alignment of professional development with New York State standards, assessments, and student needs.
  - articulation of professional development across grade levels.
  - efforts made to ensure that professional development is continuous and sustained.
  - the manner in which the school district will measure the impact of professional development on student achievement and teachers' practices.

The provisions for the Professional Development Plan have been required in New York State since September 1999. For those interested, the full text can be found in Part 100 Commissioner's Regulations. [Professional Development](#)

# Guiding Standards

## Standards for Professional Learning

Take From: Learning Forward: [standards.learningforward.org](https://standards.learningforward.org)

### Rigorous Content for Each Learner

*Professional learning results in equitable and excellent outcomes for all students when educators:*

- **Equity Practices:** understand their students' historical, cultural, and societal contexts, embrace student assets through instruction, and foster relationships with students, families and communities.
- **Curriculum, Assessment, and Instruction:** prioritize high-quality curriculum and instructional materials for students, assess student learning, and understand curriculum and implement through instruction.
- **Professional Expertise:** apply standards and research to their work, develop the expertise essential to their roles, and prioritize coherence and alignment in their learning.

### Transformational Processes

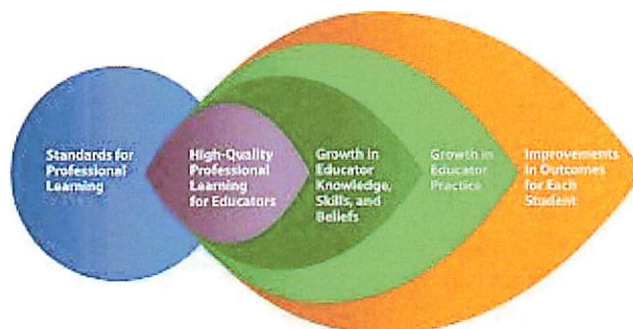

*Professional learning results in equitable and excellent outcomes for all students when educators:*

- **Equity Drivers:** prioritize equity in professional learning practices, identify and address their own biases and beliefs, and collaborate with diverse colleagues.
- **Evidence:** create expectations and build capacity for use of evidence, leverage evidence, data, and research from multiple sources to plan educator learning, and measure and report the impact of professional learning.
- **Learning Designs:** set relevant and contextualized learning goals, ground their work in research and theories about learning, and implement evidence-based learning designs.
- **Implementation:** understand and apply research on change management, engage in feedback processes, and implement and sustain professional learning.

### Conditions for Success

*Professional learning results in equitable and excellent outcomes for all students when educators:*

- **Equity Foundations:** establish expectations for equity, create structures to ensure equitable access to learning, and sustain a culture of support for all staff.
- **Culture of Collaborative Inquiry:** engage in continuous improvement, build collaboration skills and capacity, and share responsibility for improving learning for all students.
- **Leadership:** establish a compelling and inclusive vision for professional learning, sustain coherent support to build educator capacity, and advocate for professional learning by sharing the importance and evidence of impact of professional learning.
- **Resources:** allocate resources for professional learning, prioritize equity in their resource decisions, and monitor the use and impact of resource investments.

## **Standards**

- **Knowledge of Students and Student Learning**
  - Teachers acquire knowledge of each student, and demonstrate knowledge of student development and learning to promote achievement for all students.
- **Knowledge of Content and Instructional Planning**
  - Teachers know the content they are responsible for teaching, and plan instruction that ensures growth and achievement for all students.
- **Instructional Practice**
  - Teachers implement instruction that engages and challenges all students to meet or exceed the learning standards.
- **Learning Environment**
  - Teachers work with all students to create a dynamic learning environment that supports achievement and growth.
- **Assessment for Student Learning**
  - Teachers use multiple measures to assess and document student growth, evaluate instructional effectiveness, and modify instruction.
- **Professional Responsibilities and collaboration**
  - Teachers demonstrate professional responsibility and engage relevant stakeholders to maximize student growth, development, and learning.

# Descriptors of Plan

## 100 Hour Continuing Teacher and Leader Education (CTLE) Requirements

Individuals holding a professional teaching certificate and holders of the Level III Teaching Assistant certificates must complete 100 hours of CTLE (Continuing Teacher and Leader Education) every 5 years in order to maintain certification. Beginning July 1, 2016 all Level III teaching assistant certificate holders will be required to register with SED in the month of his/her birth.

	Required to Complete CTLE Hours	Hours Required per 5-Year Registration
Permanently certified classroom teachers/educational leaders	NO	None
Professionally certified classroom teachers/educational leaders	YES	100
Teaching Assistant Level III	YES	100

The Warsaw Central School District Professional Development Plan is designed to provide quality opportunities for teachers and Level III certified teaching assistants to complete their required CTLE hours. Teachers and teaching assistants are expected to participate in scheduled District conference days as well as complete acceptable CTLE activities designed to improve teacher or leader pedagogical and/or leadership skills and are targeted at improving student performance. Such activities shall promote the professionalization of teaching and educational leadership, as applicable and be closely aligned to district goals for student performance. Acceptable CTLE includes activities related to:

- Content areas(s) of the certificate(s) held,
- Pedagogy
- Language Acquisition (addressing the needs of English Language Learners)

CTLE credit may be accrued by participating in acceptable activities at Warsaw Central School District and/or through work with external providers including but not limited to:

- PLC Associates
- BOCES:
  - Erie 1
  - Genesee Valley
  - Monroe 1 & 2
  - Wayne-Finger Lakes BOCES
- Heggerty
- Really Great Reading
- Into Reading
- Sown to Grow
- Sweethearts & Heroes
- Tangmath

## CTLE Language Acquisition Requirement

The Continuing Teacher and Leader Education language acquisition requirement varies by certificate holder. (See table below) Annually, school districts can seek an exemption for the CTLE language acquisition requirement if they have fewer than 30 English Language Learners (ELLs) enrolled, or ELLs comprise less than 5% of the district's total student population.

<b>Continuing Teacher and Leader Education (CTLE) Language Acquisition Addressing the Needs of English Language Learners Requirements</b>

Additionally, all members of the faculty and staff are encouraged to participate in professional development opportunities that support their professional growth and appeal to their professional interests while also improving student achievement through increasing instructional capacity. Opportunities for both such opportunities will be designed based on student data, professional learning data, and sound educational research in order to support district goals. Several avenues exist for these opportunities such as but not limited to:

# Administration of the Professional Development Plan

## **Professional Development Committee/District Improvement Team**

The District Improvement Planning Team is a shared decision making committee of multidisciplinary school staff who work together to review and recommend a plan for appropriate professional development experiences that support the identified District goals.

The Director of Instructional Services will work collaboratively with the Development/District Improvement Planning Team to analyze student data, prioritize needs and identify and develop learning experiences to support annual growth. The committee will be responsible for reviewing and approving the proposed plan to be submitted to the Superintendent and Board of Education for final approval.

# CTLE/Professional Development

## Additional Notes

As of July 1, 2016 NYS regulations require CTLE certificate holders to maintain a record of completed CTLE that includes: the title of the program, total hours completed, number of hours completed to help with ELL's, the providing sponsors name (district, BOCES, teacher centers, etc.), attendance verification, and date/location of program. These records are to be kept for three years after the 5-year cycle in which they were applied. Teachers will be asked to periodically review their own records and the district will continue to support staff with this documentation process. Professional development hours earned by faculty and staff will be maintained in our online record keeping system for 8 years. This includes appropriate documentation of the district's mentoring program.

### Guiding Principles

The design of professional development should be a result of a district's comprehensive improvement and professional development planning process. This planning process includes, but is not limited to a collection of needs assessment data, root cause identification, proposed activities, identification of resources, and proposed evaluation of the impact of planned activities/approaches. Enhanced teaching and learning is the foundation upon which the content of our professional development is planned. Therefore, all professional development experiences are designed to enhance subject matter knowledge, increase understanding, use and application of appropriate teaching techniques, broaden and enhance assessment methodologies, and refine and advance skills for effectively managing students in classroom settings.

### Additional Considerations

- Subject matter content of professional development activities/experiences is clearly connected to student achievement of the NYS Learning Standards/Common Core Standards.
- Professional development activities/experiences are planned with the NYS Teachers Standards/New York State Learning Standards as underpinning.
- Professional development activities/experiences should respond to student achievement data as well as consider multiple data points. (Assessment of school work, NYS assessments, reports cards etc.)
- The professional development planning process is dynamic, reflecting teaching staff and student performance benchmarks of increasing rigor as skill levels are attained.
- Professional development activities/experiences are assessed on an ongoing and continuous basis for intended impact.
- Professional development is, to the greatest extent possible, site-based and connected to daily school experiences.
- Professional development enables the teaching staff to deepen their knowledge base and remain current in their content area and instructional strategies.
- Teaching staff learning opportunities are clearly constructed, based on effective teaching research, and involves educators in the design and implementation of such opportunities.

# Annual Goals

Annual Professional Development goals will be aligned with district commitments and priorities as outlined in the development of our annual comprehensive improvement plan(s).

- [Warsaw Elementary School](#)
- [Warsaw Middle School](#)
- [Warsaw High School](#)

# Mentoring

## Purpose

The Warsaw Central School District believes that teaching is a continual growth process; therefore, the district aims to provide a program through which non-tenured teachers (new teachers, teachers new to the district, or teachers making significant changes in grade level or subject area) can receive professional support from their more experienced peers. In order to help prepare and retain quality teachers, the Warsaw Central School District seeks to establish a mentoring program, which will:

- Give teachers a sense of establishing professional self-awareness.
- Acquaint new teachers with district building policies and procedures.
- Provide support in a non-judgmental environment.
- Provide samples/models for day-to-day management and instructional techniques.
- Encourage professional practice aligned with professional standards for teaching and learning.
- Provide ongoing professional development through our New Teacher Academy.

## [New York State Mentoring Standards](#)

## CTLE Credit/Compensation

Effective December 31, 2019 (not retroactive), Educators acting as a mentor to a new (1st year) classroom teacher as part of a school district's or BOCES' mentoring program may, at the discretion of the school district or BOCES, receive up to 30 hours of such time toward their CTLE requirement in each five-year registration period.

Educators acting as a mentor to a teacher candidate (probationary, not 1st year) may at the discretion of the school district or BOCES, credit up to 25 hours of such time toward their CTLE requirement in each five year registration period.

Educators acting as a mentor will receive compensation as per the WEA Contract.

## Mentor/Mentee Relationship

For a mentoring relationship to be successful, a mentee must be able to trust in the confidence that whatever he/she shares with his/her mentor remains confidential. The relationship should be one where a mentee can explore alternatives in teaching techniques, assessment strategies and district procedures without concern that the questions/topics will be used as part of the evaluation process. The role of the mentor is to be an instructional coach for the mentee; the role is not to be used as part of the formal evaluation of the mentee.

## Mentoring Structure

4 Year Probationary Track	Year 1 Formal Mentor	Year 2 Formal Mentor	Year 3 Informal Mentor	Year 4 Informal Mentor
3 Year Probationary Track	Year 1 Formal Mentor	Year 2 TBD	Year 3 TBD	

## Formal Mentoring Procedures and Guidelines

---

All teachers who are in their first year of teaching at WCS will be partnered with a formal mentor. Teachers who have never been granted tenure, will remain with a formal mentor minimally for 2 years. A non-tenured teacher who has had their probationary period extended will also be placed in a formal mentoring situation. The Mentor Committee will be a sub-committee of the District Improvement Team and will be made up of the following participants: the Superintendent of Schools, one (1) Principal or Supervisor, and two (2) teacher representatives as identified by the WEA. The Mentor Committee will determine what level of mentoring is needed for the remainder of the teacher's probationary period

1. With formal mentoring, the mentee is provided all of the support and assistance defined in the Mentor's Job Description. A teacher will be assigned only one (1) mentee in the formal mentoring program.
2. The mentor will receive and complete the Mentoring Checklist, turning it into the Director of Instructional Services per dates agreed upon annually. Each year, due dates will be based upon the Board approved school calendar. A Mentor/Mentee Handbook will be distributed annually. This handbook will act as a guidebook and personal reference for mentor/mentee pairs.
3. The mentor will observe and formally meet with the mentee as outlined on the [Mentor Plan Snapshot](#). The mentor and mentee will follow-up the observations with a post-observation discussion (a pre-observation discussion may also occur).
4. The mentor and mentee will be provided opportunities for individual and common release time for professional development as outlined on the [Mentor Plan Snapshot](#).
5. The mentor and mentee will maintain open communication.

## Informal Mentoring Procedures and Guidelines

---

Previously tenured teachers, in a probationary position at WCS, who are **not** in their first year in a given teaching assignment in the District **may** be assigned an informal mentor or no longer require a mentor. Tenured teachers at WCS assigned a new position which crosses tenure areas may be assigned an informal mentor. Decisions on what level of mentoring is needed will be made by the Mentoring Committee. (This excludes non-tenured teachers who have had their probationary period extended.)

1. With informal mentoring, the mentor and the mentees will review what a mentor can offer, as defined in the Mentor's Job Description. All support offered with formal mentoring will be available. Support above and beyond that outlined in the [Mentor Plan Snapshot](#) document will be decided mutually by the mentor and mentee. The mentor teacher will either be assigned one (1) or (2) mentees earning a single or double stipend.
2. The mentor will receive and complete the Mentoring Checklist, turning it into the Director of Instructional Services per dates agreed upon annually. Each year, due dates will be based upon the Board approved school calendar. A Mentor/Mentee Handbook will be distributed annually. This handbook will act as a guidebook and personal reference for mentor/mentee pairs.
3. The mentor will observe and formally meet with each mentee as outlined on the [Mentor Plan Snapshot](#). The mentor and mentee(s) will follow-up the observations with a post-observation discussion (a pre-observation discussion may also occur).

4. The mentor and mentee will be provided opportunities for individual and common release time for professional development as outlined on the [Mentor Plan Snapshot](#).
5. Informal mentoring can be changed to formal mentoring for the following year, if requested by the mentees and/or the mentor and/or the supervising administrator, and approved by the District Improvement Team.
6. The mentor and mentees will maintain open communication.

### **Becoming a Mentor - Procedures and Guidelines**

---

1. Applications for the mentor position will be made available through the District Office and must be turned in to the District Office by June 15th of the school year.
2. Applications will go to the Mentor Committee. The Mentor Committee will be a sub-committee of the District Improvement Team and will be made up of the following participants: the Superintendent of Schools, one (1) Principal or Supervisor, and two (2) teacher representatives as identified by the WEA.
3. Applicants will be chosen for participation in the program based on the following criteria:
  - Positive and enthusiastic about teaching
  - Knowledgeable in content area, teaching methodology, and instructional techniques
  - Tenured at Warsaw Central School or previously tenured in another school district
  - Respected by colleagues
  - Willing to share materials and ideas
  - Mastery of pedagogical skills
  - Committed to professional growth
  - Leadership qualities
  - Organizational skills
  - Positive attitude toward professional growth
  - Strong in interpersonal skills
  - Aware of the importance of confidentiality
4. A pool of potential mentors will be established by applications received by the deadline. If agreement cannot be reached, the Superintendent of Schools will make the final decision.
5. Applicants chosen to be mentors will be required to participate in annual mentor training.
6. The Superintendent of Schools will recommend to the Board of Education for their approval, the Mentor List as recommended by the Mentor Committee.

### **Confidentiality Procedures and Guidelines**

---

1. The mentor is held to strict confidentiality regarding the mentee's performance and progress.
2. The mentor may discuss the mentee in confidence with the [Mentor Coordinator](#) or any member of the Mentor Committee if there are concerns. Conversations are held strictly confidential.

3. The mentee may discuss concerns in confidence with the [Mentor Coordinator](#) or any member of the Mentor Committee. Conversations are held strictly confidential.
4. The only required written record of a mentor/mentee program is the checklist. Other written information is optional at the discretion of the mentor and/or mentee and will be kept confidential.
5. There are two exceptions to this confidentiality requirement: (1) where withholding such information poses a danger to the life, health or safety of an individual, including the staff or students of the school; or (2) where such information indicates that the new teacher has been convicted of a crime.

### **Committee Process and Procedures**

---

The Mentor Committee will be a sub-committee of the District Improvement Team and will be made up of the following participants: the Superintendent of Schools, one (1) Principal or Supervisor, and two (2) teacher representatives as identified by the WEA. Beyond year 1 in the district, the Mentor Committee will determine what level of mentoring is needed when working with previously tenured staff and/or staff members whose tenure track is extended.

Throughout each school year, the Improvement Planning Team will collect and analyze feedback and information from mentors and mentees about activities, materials, training and/or support strategies that were particularly effective during the New Teacher Academy. Data collected will be used to recommend revisions to the program in order to consistently assure the success of the Teacher Mentoring Program.

## **Conclusion**

The Warsaw Central School District's Professional Development Plan provides the blueprint for the identification, development, and implementation of professional development opportunities for the District's staff. It is designed to connect professional development with the goals of the District, the New York State learning standards and assessments. It is also designed to provide flexibility in meeting the specific and unique needs of schools, departments, and individuals. It is based, in part, on student achievement data with its purpose and intent being the improvement of student learning. This is a systemic approach designed to create an atmosphere of continuous inquiry and life-long learning. It is guided by the relevant research regarding effective professional development and defines professional development as a process as opposed to an event. It is pragmatic and sensible, and it recognizes the value and importance of professional development and its relationship to the overall success and effectiveness of the school district.

# Superintendent Statement of Assurance

**Warsaw Central School District**

## **Mentee Job Description**

---

All non-tenured teachers employed by the Warsaw Central School District will be mentored as outlined on the [Mentor Plan Snapshot](#). The mentee should:

- Participate in professional development as part of the New Teacher Academy.
- Be open to suggestions and feedback.
- Be willing to ask questions and seek help when needed.
- The mentee (alone or in conjunction with their mentor) may want to keep a record of contacts including questions, suggestions, and results of lessons (open-ended written communication) for their own professional development.
- Self-evaluate agreed upon lessons.
- Be willing to seek help early on (before a problem gets out of hand).
- Make a personal commitment to the mentoring program.
- Maintain professional confidentiality of both written and spoken communications.
- Seek help from other staff members when appropriate.
- Consider implementing suggestions made by the mentor into classroom practices.
- Non-tenured teacher means "probationary". Long-term substitutes do not usually qualify for formal mentoring. If the long-term substitute assignment is for one (1) full school year or more, the Mentoring Selection Committee, upon mutual agreement, may assign the substitute a mentor.

## **Mentor Job Description**

---

The mentor is to be of assistance to the mentee. In no way should his/her job be considered that of an evaluator. Confidentiality is to be maintained between the mentor and mentee at all times. Both parties must agree to call in a third party if deemed necessary. The Mentor job includes, but is not limited to, the following:

- Participate in annual Mentor Training in addition to other recommended professional development.
- Share information with the mentee related to school and district procedures, guidelines, policies and expectations (to include responsibility sheets, observation tips, parent meeting information, etc.).
- Link the mentee to appropriate resources, both human and material.
- Familiarize the mentee with both the community and its resources.
- Share teaching strategies and information about the instructional process.
- Share ideas and strategies for interacting positively with parents and documenting all parental contacts.
- Offer support through listening and sharing.
- Give guidance related to discipline, scheduling, planning, and organizing.
- Assist the mentee in arranging, organizing, and analyzing the physical setting of the classroom.
- Counsel the mentee when day-to-day frustrations arise.
- Allow the mentee to observe the mentor and discuss the lessons afterward.
- Observe the mentee teaching lessons, collecting data during the observation and sharing and discussing it with the mentee for non-evaluative purposes.
- Promote self-observation and analysis in the mentee.
- Assist the mentee in setting and meeting realistic goals and re-evaluating these goals as necessary.
- Meet with and record mentoring activities as per established guidelines.
- Maintain confidentiality.
- The mentor is not to be a part of the evaluation process of the non-tenured teacher.

### **Students**

#### **Fundraising by Students**

Only Board-approved classes, clubs and organizations may engage in fundraising activities. Warsaw Central School sponsored sports teams are not eligible for fundraising activities. Students are responsible for the administration of extra-curricular funds with oversight from advisors and administration.

Fundraising projects will be kept to a maximum of three (3) in a school year per class, club or organization. The school year will be considered July 1 to June 30. Any additional fundraisers would need to have prior approval from the Superintendent.

School students may solicit funds for school-sponsored classes, clubs, and organizations that are raising funds for curriculum-related purposes or to support the activities of the club or organization only with prior approval of the Principal of the building. A "Fundraising Report" form specifying the nature and purpose of the activity, dates for the sale and containing the Principal's signature will be completed by the club, class or organization advisor.

All fund-raisers will conform to State law and regulations (e.g., raffles or games of chance will not be permitted and copyright laws must be complied with).

The advisor to the Student Council will coordinate fundraising activities to prevent duplication of activities. The advisor will maintain a master calendar of all such activities. There will be only one fundraising activity scheduled at a given time. Classes, clubs and organizations will propose fundraisers in June prior to the new school year.

Requests for fundraising activities for non-school purposes must be submitted to the Superintendent for approval at least two weeks before the event.

All monies collected must be accounted for in strict accordance with procedures established to the Business Office. Any class, club or organization which raises money shall be responsible for any and all expenses incurred.

The purpose of student fundraising activities is to promote the values of cooperation and mutual support through goal-oriented activities. Therefore, individual class or student club fundraising activities must be related to specific goals to be developed by the students under the guidance and direction of the advisor. Monies earned in connection with fundraising activities must accrue to the class or club as a whole and are not to be recorded or identified in any way as specific to individual students except for classes, clubs or organizations that have a Board-approved overnight trip. Classes, clubs or organizations that have a Board-approved overnight trip may designate two fundraisers per year to be recorded specific to each individual with those funds being directly applied to offset costs of the overnight trip.

## ***Warsaw Central School District***

*Home of the Tigers*

*Policy Manual*

In order to promote the value of mutual cooperation, advisors are to encourage student participation in fundraising activities. The advisor, in collaboration with the students, will define acceptable levels of participation in these activities.

These standards are to take into account individual differences among students in their ability to engage in fundraising activities.

Dear Board of Education,

I am writing for your approval to allow one member of the FFA club to travel to Syracuse, New York on August 30-31, 2023. The Student will be participating in the Dairy Handlers Career Development event at the New York State Fair. This opportunity would give the student more experience handling dairy cattle as well as the ability to help our younger less experienced members understand what this competition is about. She is an experienced dairy handler and placed 3rd at this year's county fair. Next year we would like to develop a team to go for this contest.

Thank you for your time and consideration.

Sincerely,

Memo to Board of Education

Middle High School Library - Request to surplus outdated library books

To be relevant, a library must adapt with the time and to the interests of the readers. Librarians must monitor the collection and review titles periodically to assess content, quality, condition, interest level, and readership. Based on this review, worn materials may be replaced and titles that are outdated, of inferior quality, or with no readership must be removed to make space for newer titles.

In the case of nonfiction, the shift from print to digital information has continued and, in addition to content and condition issues, many books are no longer relevant in format. In contrast, nationwide readership of narrative nonfiction has increased and our library is striving to support that increase with a growing collection of memoirs and other high-interest narrative nonfiction.

Last spring, I reviewed almost the entire nonfiction collection. Using the criteria described above, I pulled almost 2,000 nonfiction books from our shelves (plus 20 fiction titles).

- None of these books is less than nine years old; the newest removals were published in 2014.
- The oldest books removed were published in the 1950's with over 400 purchased 1990 or earlier,
- Over 1,600 (82%) were published before our senior class was born, and almost 2000 (99%) were published before our 6th graders were born.
- The average age of nonfiction removed is 1997 and the median age is 1998.

A complete list of titles pulled from our shelves is attached to this explanation. Groups of teachers were contacted last spring to assist with the weeding process and to take books that they felt may still be relevant in classrooms despite loss of relevance as library books. I pulled additional materials that I believe have relevance in various classrooms which I will offer to teachers as school begins this fall. All other books on these lists are in boxes in the library awaiting disposal.

An additional goal of this aggressive weeding project was to create space on our shelves to accommodate a special section of lower level fiction books curated especially for emergent readers who enjoy graphic novels but are overwhelmed by the genre sorted shelves of fiction with varying reading and maturity levels. This project is ongoing.

Thank you for your support in this matter.
